Dear Dr. Reinald Pugoy,

I am now in the 4th year of Information Technology program at STI College in Santa Cruz, and during all of my studies for programming, database, web development, network technology, and IT support specialist, I have shown remarkable academic accomplishment.

My knowledge is relevant to frontend developer roles since it was gained via my professional experience on work immersion by designing and developing websites using HTML, CSS, and Javascript.

Please feel free to contact me at 0951 058 1295 or joevertbryan@gmail.com if you agree that I would be a great addition to your team.

Sincerely yours,
